ESTHETIC SOLUTIONS

Straumann® Emdogain® / Straumann® Emdogain® FL
Clinical Evidence.
Straumann® Emdogain® / Straumann® Emdogain® FL

Straumann® Emdogain® and Straumann® Emdogain® FL consist of an easy-to-use unique gel containing enamel matrix proteins. These proteins form an extracellular matrix that stimulates cells and processes that are fundamental for tissue regeneration which provides improved clinical results with increased patient comfort.\(^1\)

SCIENTIFICALY PROVEN

Straumann® Emdogain® means peace of mind for the clinicians and their patients. It is documented in over 1000 scientific publications\(^2\), including over 600 clinical papers and 10-year data.\(^3,4\)

MORE PATIENT COMFORT

In oral surgical procedures, Straumann® Emdogain® improves the wound healing and leads to less pain and less swelling compared with similar protocols without Emdogain®.\(^5,7\)

EASY HANDLING

Straumann® Emdogain® / Straumann® Emdogain® FL provides an easy and precise application with no leakage and due to the gel consistency is easy use.\(^6\)
This is a list of selected publications on Straumann® Emdogain® and Straumann® Emdogain® FL in clinical research, listed by clinical indication, and by author in alphabetical order. Most abstracts are available via [www.pubmed.gov](http://www.pubmed.gov) or [dx.doi.org](http://dx.doi.org).

**Table of contents:**
- General review on Straumann® Emdogain®
- Straumann® Emdogain® in periodontology
  - Clinical literature on Straumann® Emdogain® in the treatment of intrabony defects
  - Clinical literature on Straumann® Emdogain® in the treatment of furcation defects
  - Clinical literature on Straumann® Emdogain® in the treatment of recession defects
- Straumann® Emdogain® in oral wound healing
- Straumann® Emdogain® FL in non-surgical treatment
- Straumann® Emdogain® / Straumann® Emdogain® FL in peri-implant treatment
  - Clinical literature on Straumann® Emdogain® FL in the treatment of peri-implant mucositis
  - Clinical literature on Straumann® Emdogain® in the treatment of peri-implantitis
